

Installing *Profiler*

We offer 3 ways for you to get the *Profiler* installed in your computer:

- 1 – Remotely: follow this PDF guide (a few quick steps and it's done!).
- 2 – Remotely: follow our video tutorial available at <https://youtu.be/WgvVt7Ve58Q>
- 3 – In person: contact our team at oliveiraLab@ece.ufl.edu and make an appointment (Monday to Friday, 9am – 4pm), so we can install the *Profiler* on your computer or assist you to do so (do not forget to bring your laptop).

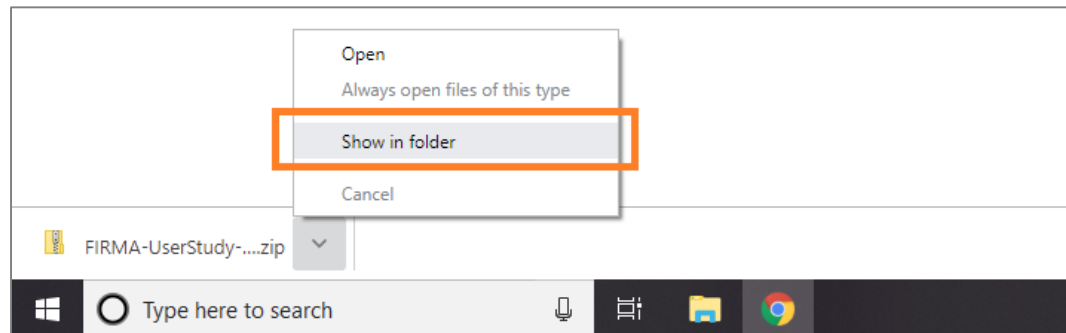

Having problems installing the *Profiler*? Feel free to contact our team at oliveiraLab@ece.ufl.edu. We will be happy to assist you in any questions or issues you might have.

Profiler Installation Guide

- **STEP 1:** Make sure your computer is connected to the internet.
- **STEP 2:** Click on the link below (you may also copy the link and paste it into a web browser).

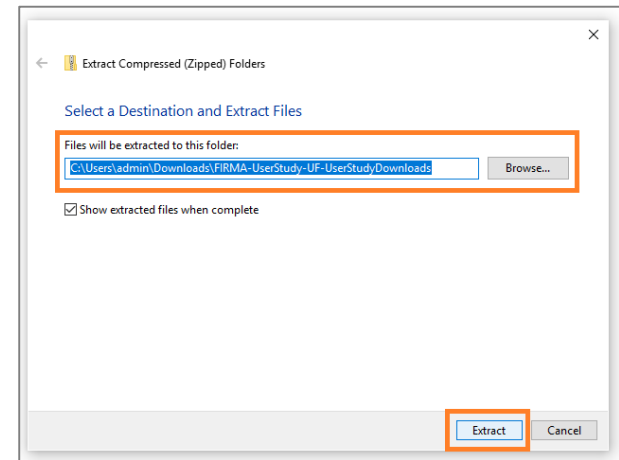

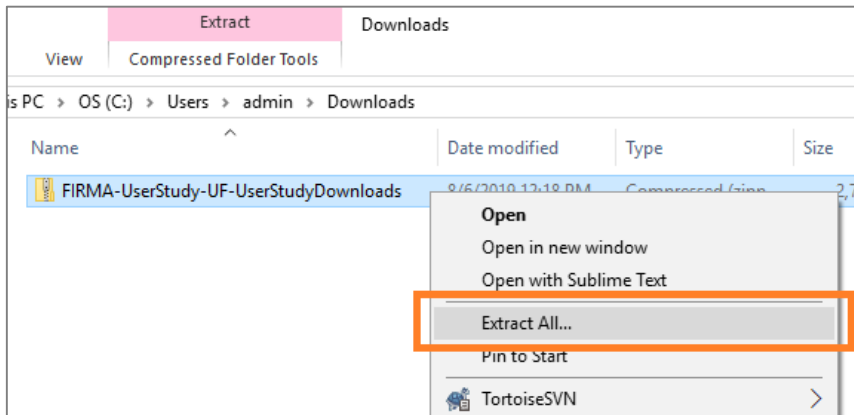

<https://github.com/danielaoliveira/FIRMA-UserStudy-UF/archive/UserStudyDownloads.zip>

- **STEP 3:** You will be asked to download a file, allow it. The download may also start automatically, depending on your browser settings.
- **STEP 4:** Open the folder where the file is downloaded. If you are using Google Chrome, you may click on 'Show in folder'.

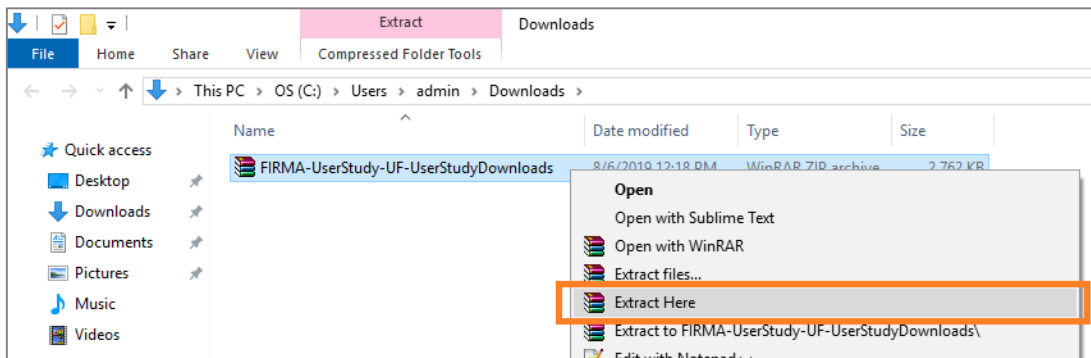

Profiler Installation Guide

- **STEP 5:** Extract the contents of the downloaded file.
- ❖ **If you don't have an unzipping program installed,** right-click the file and select 'Extract All...'. Then, choose a folder where the contents can be extracted into and click 'Extract'.

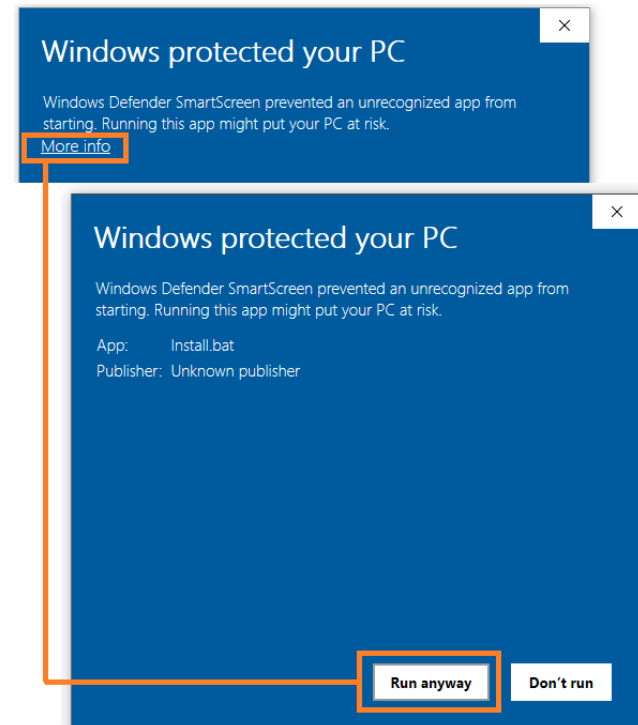

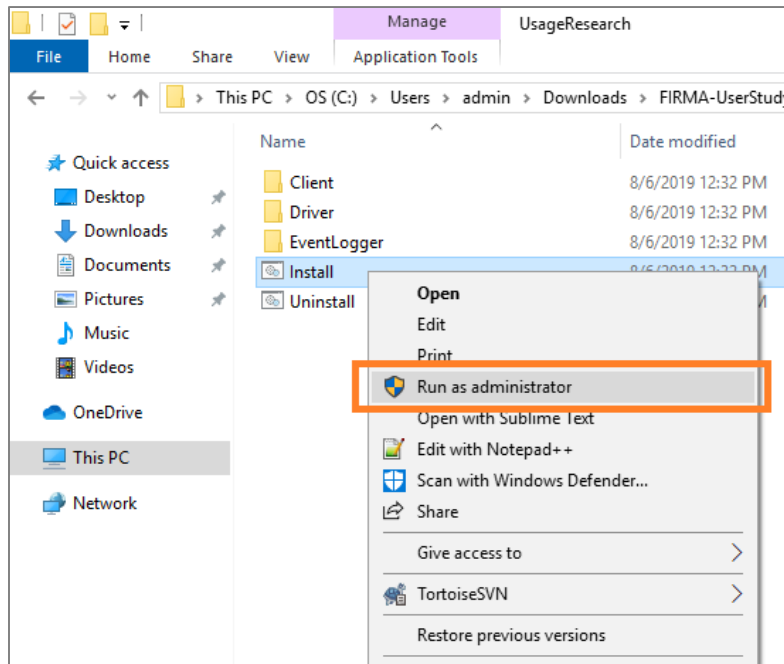

- ❖ **If you have an unzipping program installed,** just right-click the file and select 'Extract Here'.

Profiler Installation Guide

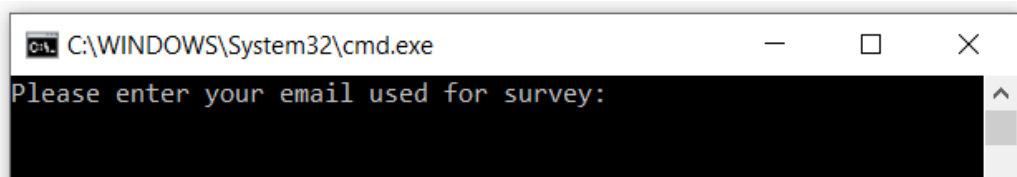

- **STEP 6:** Open the folder titled 'FIRMA-UserStudy-UF...', then open the folder titled 'UsageResearch'.
- **STEP 7:** Right-click on *Install.bat* file and select 'Run as administrator'.
- **STEP 8:** If you get a Windows Defender message, just click on 'More info' and select 'Run anyway'.

Profiler Installation Guide

You **MUST** be connected to the internet for these last steps to properly work!
Please make sure you are connected to the internet before continuing!

- **STEP 9:** A prompt is shown for you to enter your email. **Please enter the same email that you used for the survey**, then hit 'enter'.

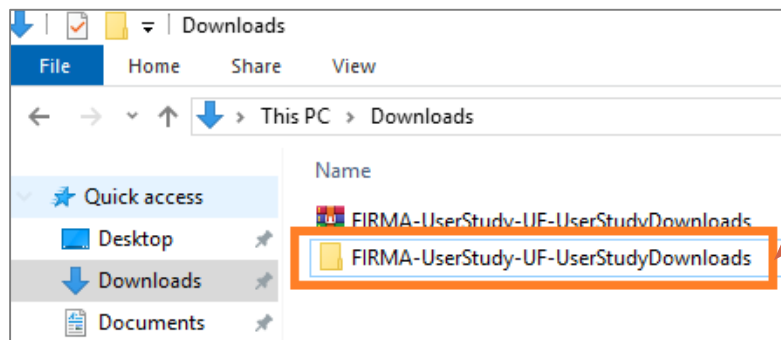

Please wait while files are installed, this usually takes a few minutes. **Do not close the prompt or shut down the computer in the meantime.**

- **STEP 10:** You should see a message confirming that all files were successfully installed. Press enter to reboot the system and conclude the installation.
 - Important: if the system doesn't go for a reboot after pressing 'enter', please reboot it manually. The installation will not be concluded until the system is rebooted.

Profiler Installation Guide

Once the *Profiler* is installed on your computer, DO NOT REMOVE, MOVE, or MODIFY the folder 'FIRMA-UserStudy-UF...' or any of its contents. Please wait until the uninstallation phase, when all files related to the *Profiler* will be removed from your computer.

Problems? Questions?

- Please contact our team if:
 - You are having a hard time installing the *Profiler* by yourself. We will be happy to assist you in person or remotely.
 - You wish to make an appointment for us to install the *Profiler* in your computer (Monday to Friday, 9am – 4pm). Don't forget to bring your laptop to us.
 - You have any other questions or issues.
