# Installing *Profiler*

**We offer 3 ways for you to get the *Profiler* installed in your computer:**

- 1: Follow this PDF guide (a few quick steps and it's done!).

- 2: Follow our video tutorial available at https://youtu.be/WgvVt7Ve58Q

- 3: Contact Luiz Giovanini at lfrancogiovanini@ufl.edu and make an appointment (Monday to Friday, 9am – 4pm), so he can install the *Profiler* on your computer or assist you to do so (do not forget to bring your laptop). Luiz is our postdoctoral associate.
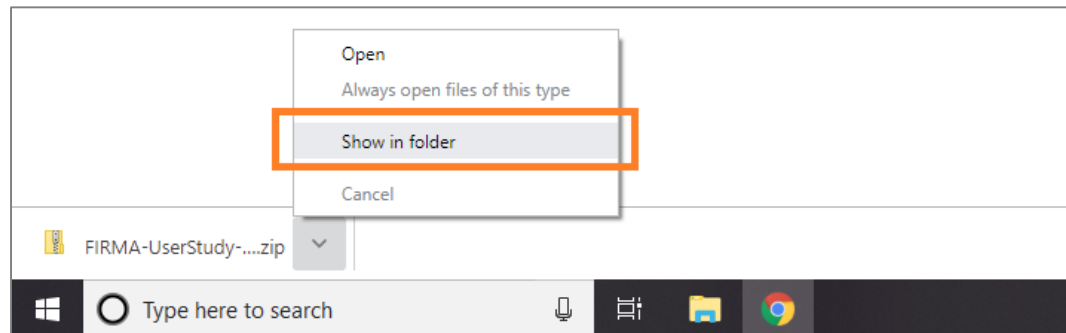

_____

Having problems installing the *Profiler*? Feel free to contact Luiz Giovanini at lfrancogiovanini@ufl.edu. He will be happy to assist you in any questions or issues you might have.

# *Profiler* **Installation Guide**

- **STEP 1:** Make sure your computer is connected to the internet.

- **STEP 2**: Click on the link below (you may also copy the link and paste it into a web browser).
    https://github.com/danielaoliveira/FIRMA-UserStudy-UF/archive/UserStudyDownloads.zip

- **STEP 3**: You will be asked to download a file, allow it. The download may also start automatically, depending on your browser settings.

- **STEP 4**: Open the folder where the file is downloaded. If you are using Google Chrome, you may click on 'Show in folder'.
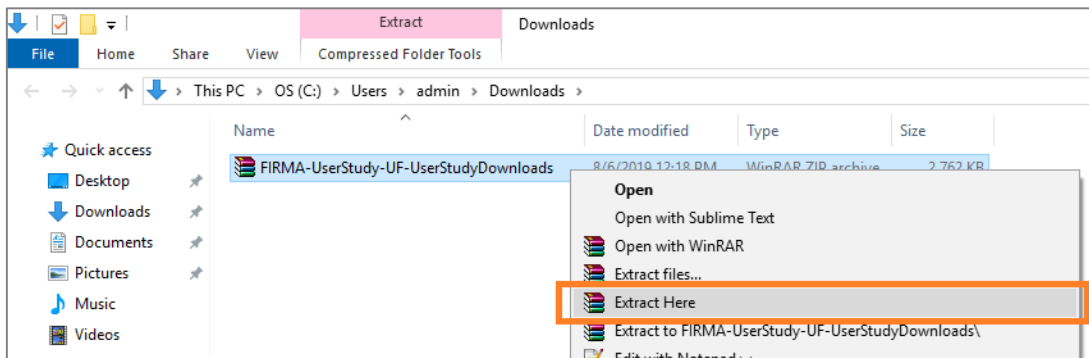

# *Profiler* Installation Guide

- **STEP 5**: Extract the contents of the downloaded file.

- ❖ **If you don't have an unzipping program installed,** right-click the file and select 'Extract All…'. Then, choose a folder where the contents can be extracted into and click 'Extract'.

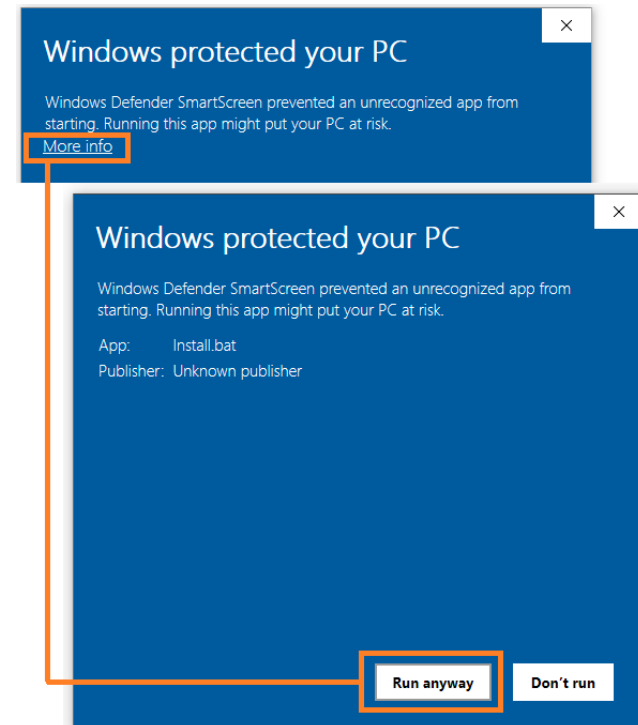

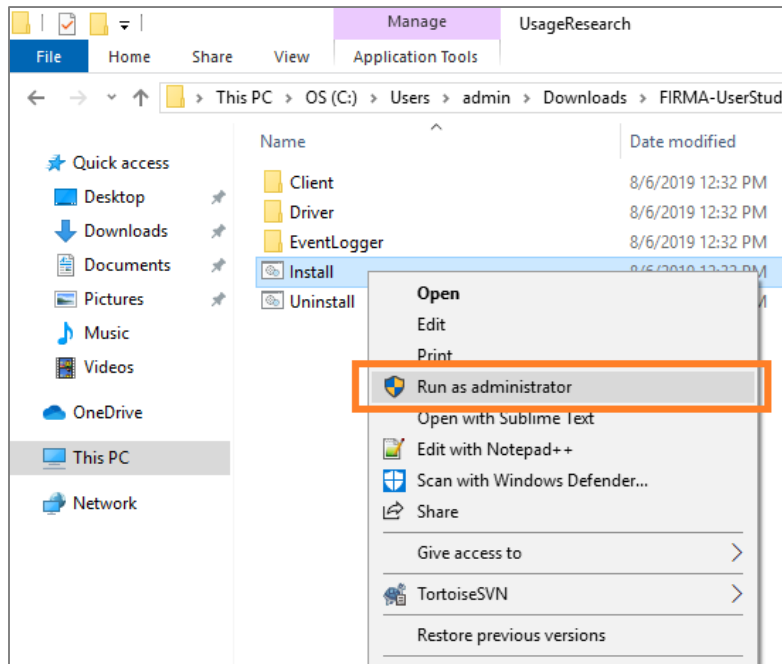

- ❖ **If you have an unzipping program installed,** just right-click the file and select 'Extract Here'.
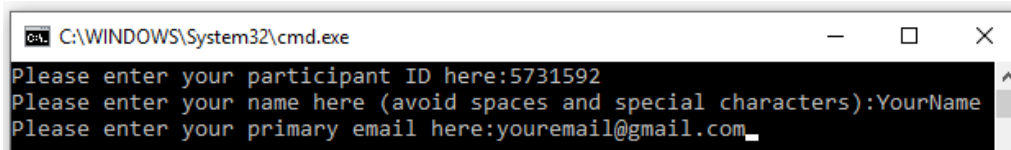

# *Profiler* Installation Guide

- **STEP 6**: Open the folder titled 'FIRMA-UserStudy-UF…', then open the folder titled 'UsageResearch'.

- **STEP 7**: Right-click on *Install.bat* file and select 'Run as administrator'.

- **STEP 8**: If you get a Windows Defender message, just click on 'More info' and select 'Run anyway'. Otherwise, skip to the next step.

# *Profiler* Installation Guide

> **You MUST be connected to the internet for these last steps to properly work!**
> **Please make sure you are connected to the internet before continuing!**

- **STEP 9**: A prompt is shown for you to enter some information.
- ❖ First, enter the **ID** assigned to you and hit 'enter'. (*this ID will be in the email that sent you this PDF*)
- ❖ Then, enter your **name** and hit 'enter'.
- ❖ Lastly, enter your **e-mail** and hit 'enter.

Please wait while files are installed, this usually takes a few minutes. **Do not close the prompt or shut down the computer in the meantime**.

- **STEP 10**: When this message is displayed, the files are all installed. Please hit 'enter' to reboot the system and get the installation successfully done.

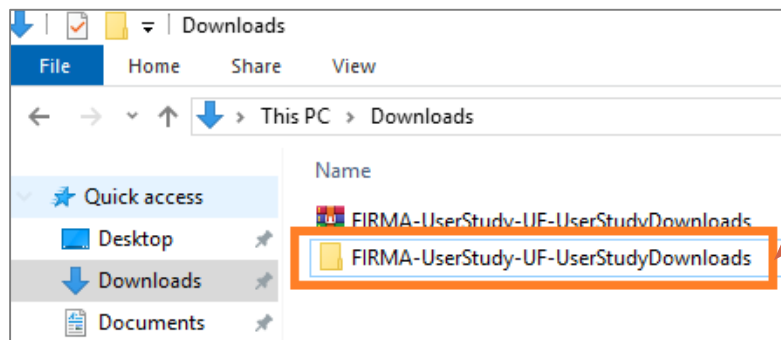

If the system doesn't go for a reboot after pressing 'enter', please reboot it manually. The installation will not be concluded until the system is rebooted.

# *Profiler* **Installation Guide**

> **Once the *Profiler* is installed on your computer, <u>DO NOT REMOVE, MOVE, or MODIFY</u> the folder 'FIRMA-UserStudy-UF…' or any of its contents. Please wait until the uninstallation phase, when all files related to the *Profiler* will be removed from your computer.**

# Problems? Questions?

- Please contact Luiz Giovanini, our postdoc associate, if:

  - You are having a hard time installing the *Profiler* by yourself. He will be happy to assist you in person or remotely.

  - You wish to make an appointment for him to install the *Profiler* in your computer (Monday to Friday, 9am – 4pm). Don't forget to bring your laptop to him.

  - You have any other questions or issues.
